The prices mentioned above include all taxes associated with the service and are the total prices. To clarify, if the commitment type chosen is advance payment, the Total Contracted Membership Fee collected will be in the form of an advance payment.

## REGISTRATION TERMS

- 1- We have a quota that limits the number of groups in our winter sports school.
- 2- The trainings at our winter sports school will last for 60 minutes on the designated days and times throughout the week.
- 3- The registration process for members of the Weekday Winter sports school consists of three periods. Sportspersons will be registered for the term upon agreeing not to cancel or terminate their membership during the Contract Period

4- The registration period dates do not include intermediate holidays and semester holidays, so there will be no compensation or refund.

5- The membership fee is collected from the moment you begin your training.

6- The registration procedures can be carried out during the semester, considering the availability of quota. The registration process conducted during the middle of the term is determined by the remaining number of weeks, and once completed, the registration is finalized.

7- Our training programs are scheduled considering official and religious holidays, and we do not provide refunds or allow for transfers of fees for the days when activities are not conducted due to these reasons. (29 October, 1 January, 23 April, 1 May)

8- If the sports schools are unable to operate during the specified periods, the fee will not be refunded. Instead, the missed lessons will be made up within the same period. If it is not possible to make up for the missed lessons, the trainees will be transferred to the next term.

9- Refunds or compensations are not provided for instances of absenteeism caused by the sportsperson, except for health-related reasons.

10- If the sportsperson cannot participate in the sports activities for a short period of time (1 or 2 weeks) due to health reasons, those weeks of absence will be carried forward to the following semester. The report should be handed in to the registration office.

11- Regarding term memberships, if a sportsperson cancels, he/she will be charged the fee for the weeks he/she was participating in, and 30% of the remaining week amount will be deducted.

12- It will be expected that every registered sportsperson does not have any health issues that would hinder their participation in sports. If needed, Ayka Talent Sports Club may ask for a health report and/or declaration from the sportsperson.

13- Ayka Talent Sports Club has the right to modify the organization of the sports school in accordance with health measures and exceptional circumstances mandated or altered by the Official Authorities of the Republic of Turkey.

14- Refunds for fees will only be issued in the event of a change of residence province or a sports-related injury that will hinder participation in sports for an extended period. To initiate the refund process, a medical doctor's report must be provided to the Club administration.

15- The address information filled in the membership form shall be accepted as the notification address.

16- The discount rates are applicable to all periods. Each branch has one discount defined. Multiple discounts cannot be applied simultaneously.

2nd sibling and above 10%

2nd branch and above discount 10%

5% for Mef students
